

# PANGAIA

**READ, SHARE, CONTRIBUTE  
WEAR(E) THE FUTURE**

**GAIA'S WAY IS OUR CALL,  
ONCE AND FOR ALL**

**PANGAIA**, a sustainable fashion brand founded in 2018 by Miroslava Duma, focuses on creating products that are better for the planet. The brand's name combines **"PAN" (all-inclusive)** and **"GAIA" (Mother Earth)**, reflecting its commitment to sustainability and inclusivity. Pangaia's innovation lies in its use of regenerative materials and advanced technologies.

Pangaia is recognized for its pioneering work in sustainable materials, including **FRUTFIBER™** and **PLNTFIBER™**, which repurpose food industry by-products like pineapple and banana leaves into eco-friendly fabrics. As well as their patented **FLWRDWN™** is a breathable, compostable alternative to goose down, made from wildflowers and corn-derived biopolymer. They also use botanical dyes and treatments like **peppermint oil** to reduce the need for frequent washing, conserving water and energy.

Additionally, **Pangaia holds several patents** for their unique materials and technologies, underscoring their commitment to innovation in sustainable fashion. Their efforts are supported by a global collective of scientists, designers, and technologists, making them a **leader in the sustainable fashion movement**.

## SHOWING MINDSIGHT WITH SUSTAINABLE WEAR- FOR MOTHER EARTH, PRESENT & AWARE

**PANGAIA** offers a range of sustainable wardrobe essentials, including t-shirts, hoodies, track pants, and FLWRDWN™ puffer jackets, made from innovative materials like seaweed fiber, organic cotton, and wildflowers. Their products feature botanical dyes and antibacterial treatments to reduce washing, emphasizing comfort and everyday wear. Designed for eco-conscious consumers, Pangaia's **gender-neutral styles** cater to a broad audience, **blending modern streetwear aesthetics with sustainability**. This brand targets those who value high-quality, environmentally friendly fashion.

# PANGAIA REWARDROBE

### Grape Leather Sneakers

This genderless shirt is made from 100% linen and treated with aloe vera oil. It features a regular fit and a super soft handfeel. Summer-inspired hues and unique pocket details create a lighter, crisper take on linen, making it the ultimate warm-weather staple.

### FLWRDWN™ Jackets

This bomber jacket, made with FLWRDWN™—a biobased, animal-free alternative to duck and goose down—features an oversized fit, a recycled nylon shell, and is designed to keep you warm. It uses wildflowers and biopolymer materials, includes two side pockets, and is genderless, making it a stylish and sustainable choice for all.

### 365 Heavyweight Hoodies

These genderless hoodies, part of the 365 Collection, feature a hooded neck and side pockets. Designed for daily wear, they offer comfort and durability year-round, suitable for both active and leisure activities.

# DRESS TO PURPOSELY IMPRESS

**PANGAIA** holds patents for several of its unique materials and technologies, such as **FLWRDWN™**, **FRUTFIBER™**, and **C-FIBER™**, reinforcing its role as a leader in sustainable fashion. These innovations utilize renewable resources like **wildflowers, agricultural waste, seaweed, and eucalyptus**. They provide eco-friendly alternatives to traditional materials, significantly reducing environmental impact while maintaining high performance and comfort

**FLWRDWN™** is a patented, biobased material made from **wildflowers and a corn-derived biopolymer**, offering an eco-friendly alternative to traditional down. It provides thermal insulation, is breathable, durable, and thermoregulating, making it ideal for various weather conditions. This innovative material eliminates the need for animal products while maintaining high performance

**FRUTFIBER™** is an innovative material created from agricultural waste, such as **pineapple and banana leaves**. This eco-friendly fabric repurposes food industry by-products, reducing waste. Treated with **PPRMINT™**, an antimicrobial and anti-odor treatment made from peppermint oil, **FRUTFIBER™** is non-toxic and environmentally friendly, avoiding harmful metals commonly used in conventional treatments.

**C-FIBER™** is a sustainable and innovative material developed by Pangaia, combining **seaweed and eucalyptus fibers**. This unique blend results in a fabric that is soft, breathable, and biodegradable. Utilizing renewable resources, **C-FIBER™** provides a comfortable and eco-friendly alternative to traditional textiles. Its design ensures not only high performance and comfort but also a significantly reduced environmental footprint.

**Bees buzzing here, bees buzzing there,  
Pollinating flowers, showing they care.  
In forests tall, with trees so grand,  
Nature's harmony, a helping hand.**

**Let's plant some trees, let's save the bees,  
For a brighter future, full of green seas.  
With buzzing bees and forests wide,  
Together we'll protect Earth's pride!**

**And with Pangaia, leading the way,  
Sustainable fashion, come what may.  
Eco-friendly choices, from head to toe,  
Supporting nature, as we grow!**

**The Tomorrow Tree Fund**, launched by Pangaia in 2020, supports global forest conservation, protection, and restoration. Partnering with grassroots NGOs, the fund has planted, protected, and restored over 1 million trees, enhancing biodiversity and ecosystem health. This initiative is part of Pangaia's broader commitment to achieving net-zero emissions and promoting environmental sustainability

**The Bee The Change Fund**, launched by Pangaia on World Bee Day 2020, aims to protect endangered bee species and other pollinators. Partnering with grassroots NGOs like Milgis Trust in Kenya, the fund supports sustainable beekeeping practices and habitat restoration. Pangaia raises awareness and funds through special product capsules, with proceeds going directly to conservation efforts. The initiative highlights the critical role of bees in ecosystems and promotes biodiversity

**The B Corp Certification** demonstrates Pangaia's adherence to high standards in governance, environmental impact, and social responsibility. This certification ensures that Pangaia operates with a strong ethical framework, prioritizing transparency, sustainability, and positive community impact.

**Responsible Wool Standard** guarantees that the wool used in Pangaia's products is ethically sourced. This standard ensures humane treatment of sheep throughout the supply chain, emphasizing animal welfare, sustainable land management, and traceability from farm to final product

# BEE THE CHANGE, HONEYLIKE DESIGNS

PANGAIA

In the radiant thoughtful world of Pangaia, where fashion flirts with sustainability, each piece of apparel is a love letter to our planet. By harnessing Gaia's wisdom, Pangaia crafts top-notch garments from revolutionary materials like FLWRDWN™, FRUTFIBER™, and C-FIBER™. These eco-friendly creations are as stylish as they are durable, seamlessly blending nature's finest with scientific ingenuity.

Pangaia's initiatives, such as the Tomorrow Tree Fund and Bee The Change Fund, embody their colorful beehaviours to biodiversity. They plant trees, protect bees, and champion the cause of sustainability with every humble step, proving that fashion can indeed save the world.

Unique in their approach, Pangaia paints a future where sustainability and style harmonize. Their sweet honelike approach to capture the future clothing market, inspiring us all to wear and care values on our sleeves. Embrace Pangaia, where every vibrant stitch tells a story of innovation, creation and a greener colorful tomorrow
